PROJECTS IMPLEMENTED:

Project 8	
Project Name	**Leviathan**
Technologies Used	ASP.NET Core 2, Micro-services
Client	**Internal**
Description	Leviathan is project where all the source data from different excels and xml are converted into standard Pulse export file..
Roles and Responsibilities	✓ Web Development using Visual Studio. ✓ Interacting closely with London and India team about the requirements. ✓ Analyzing the scope of the requirement. ✓ Implementing the requirement. ✓ Participating in daily stand-up. ✓ Integrating and publishing the code.

Project 7	
Project Name	**Exim Service**
Technologies Used	ASP.NET Core 2 and MongoDb
Client	**Internal**
Description	Exim service is provides prices and historical data for Pulse.
Roles and Responsibilities	✓ Web Development using Visual Studio and Writing MongoDb Queries. ✓ Interacting closely with client about the requirements. ✓ Analyzing the scope of the requirement. ✓ Implementing the requirement. ✓ Participating in status meeting with the clients. ✓ Integrating and publishing the code. ✓ Assigning weekly tasks to the team members.

Project 6	
Project Name	**Pulse**
Technologies Used	ASP.NET MVC 5, AngularJs and MongoDb
Client	**Internal**
Description	The GPI pulse proprietary platform offers unrivaled breadth and depth of data coverage which enables fast, efficient decision making and competitive advantage. GPI pulse provides highly granular pricing, access and HTA data down to individual pack and indication level.
Roles and Responsibilities	✓ Web Development using Visual Studio and Writing MongoDb Queries. ✓ Interacting closely with London team about the requirements. ✓ Analyzing the scope of the requirement. ✓ Implementing the requirement. ✓ Participating in daily stand-up. ✓ Integrating and publishing the code.

Project 5	
Project Name	**SNT 04**
Technologies Used	C#, SQL Server, Web Api 2, Linq, AngularJs and OWASP
Client	**Springer Nature**
Description	This is a tool which is used to provide courses for the US and maintain student information and their progress.
Roles and Responsibilities	✓ Web Development using Visual Studio and Writing Sql Queries. ✓ Interacting closely with client about the requirements. ✓ Analyzing the scope of the requirement. ✓ Implementing the requirement. ✓ Participating in status meeting with the clients. ✓ Integrating and publishing the code. ✓ Assigning weekly tasks to the team members.

Project 4	
Project Name	**Ace**
Technologies Used	C#, SQL Server, ASP.Net Mvc 5, Html and Css
Client	**Internal**
Description	This is a tool which is used to provide courses for the US and maintain student information and their progress.
Roles and Responsibilities	✓ Web Development using Visual Studio and Writing Sql Queries. ✓ Analyzing the scope of the requirement. ✓ Implementing the requirement. ✓ Participating in status meeting with the team members. ✓ Integrating and publishing the code.

Project 3	
Project Name	**Property81**
Technologies Used	C#, Asp.Net MVC 4, Sql Server, Ajax
Client	**Property81**
Description	This is a online property website for end-user where in they can browse and contact seller of the property.
Roles and Responsibilities	✓ Web Development using Visual Studio and Writing Sql Queries. ✓ Interacting closely with client about the requirements. ✓ Analyzing the scope of the requirement. ✓ Implementing the requirement. ✓ Integrating and publishing the code. ✓ Understanding Functional as well as Technical Requirements.

Project 2	
Project Name	**Havells Power Plus**
Technologies Used	C#, Asp. Net Web Forms, Ms SQL 2008 & JQuery
Client	**Havells**
Description	The aim of the application is to develop online points redemption program for retailers and wholesalers. End user can redeem their eared points with any product they like.
